

THE TRAKA

FEED ZONES & SUPPORTERS

MAY 2024

FEED ZONE & ASSISTANCE

We would like to provide you with important information about the feed zones and the rules to follow during the event. The feed zones will be located at strategic points along the route, where participants will be able to replenish their energy and rest during their challenge.

However, it is crucial to note and remember that it is strictly forbidden to go with the car inside the track during the event. This is to ensure the safety of all participants and to maintain the integrity of the competition. And remember that support is just allowed in the assistance area marked by the organization, out of those areas, the participant will be penalized or disqualified.

In addition, we have provided a detailed map showing how to get to the parking area where the assistance is permitted.

We ask that you follow these directions and use only the designated routes to reach the feed zones and parking areas. To facilitate your arrival to the different feed zones, we have attached Google Maps links that will guide you to each location.
